

Tflex P100 Directions for Use

Shelf Life:

Shelf life for Tflex P100 is 2 years from date of shipment at the storage conditions specified below.

Storage Conditions:

Recommended storage conditions are 0-35°C at relative humidity of 50% maximum. Store in original product packaging until ready for use.

Application Instructions:

1. Remove the transparent liner from the insulating layer side of the sheet.
2. Fold the die cut the thermal pad and push the thermal pad to make it separate from the diamond liner.
3. Peel off the thermal pad from the diamond liner and place the pad onto the desired substrate. A light diamond embossing on pad surface is expected and normal due to material's high compliancy
4. Cover the exposed gap pad or continue the assembly process to avoid contamination of the surface with dust and debris.
